About our Last Meeting:

Thanks to Jamie Cox for finding Mark Brasel who gave a great presentation on ProTools music software, showing us how to mix a song using the mixing board and waveform windows. At the meeting, Mark remixed a song he had been working on, a task which from scratch takes weeks to complete.

Sorry for the short postcard! **L'il Bits** will return in December. Meanwhile, watch for Cher's full **MacBits** in November.
